

Week 1: March 20, 2020

The PetPoint COVID-19 Report is a weekly gauge of U.S. homeless pet population in the care of animal welfare organizations. Data is aggregated via the PetPoint Animal Management Software, a cloud-based application developed and launched in 2005. PetPoint is the most widely used animal management application in North American animal welfare.

The March 20th PetPoint COVID-19 Report aggregates data from 1191 animal welfare organizations (“AWOs”) in the United States, it compares it to data from the prior week and same week in 2019.

For the purposes here, AWOs are defined as animal control agencies, SPCAs, humane societies and rescue groups. Only data from AWOs operating PetPoint during both January 1, 2019 to current have been included.
